

[Hello JoAnn,](#)

Thanks for your note. We have reached out to both Evergreen and Smithsonian with no success. It seems that if there is a complete set of original drawings somewhere in the world, they are pretty well hidden. At this point we are hoping to find photographs of the instrument panel of the short wing version (the original) but we have only been able to find those of the modified, or long wing version. Again, we appreciate anything you can drum up throughout your network.
